WASHINGTON – Congresswoman Louise Slaughter (NY-28), Ranking Member of the House Rules Committee, today released the following statement as the United States Census Bureau released their most recent population data regarding New York State.

“I have consistently said that a seat in Congress is a gift given to me by the people I’m proud to represent. I consider it a privilege. Over my 24 years in Congress I’ve served the residents of Monroe, Ontario, Livingston, Genesee, Orleans, Niagara and Erie Counties. I look forward to seeing the new Congressional districts being formed Upstate and am hopeful that they come about through a fair redistricting process that best serves the people of New York. With that in mind I want to make clear my hope to continue serving the people of New York so I can continue my work rebuilding the Upstate economy.”
