

Small businesses are the backbone of our national and local economies. Indeed, nearly 99% of all full-time business firms in New York State are small businesses. An important priority for Congresswoman Slaughter is to provide an environment which supports small businesses. The simple truth is that the future rests on fostering these enterprises.

Please feel free to contact Maureen Duggan, Director of Economic Development, in Congresswoman Slaughter's Rochester District Office at (585) 232-4850 if you have any additional questions or concerns.
